What's New in the NeverStopYT?

NeverStopYT is the first app ever released specially aimed to users like you, that enjoy listening to music on YouTube.

However it isn't meant to compete with YouTube. No, this is a simple audio player that features an immersive playlist system, cross-fading support for YouTube videos, an additional multitasking user interface, media keys and a built-in master volume control. NeverStopYT

Features: - Easy to use: NeverStopYT is as intuitive as the iPhone native YouTube client, making it almost like a charm. Simple gestures (just one

button) allow you to jump back, forward, play, pause or adjust the volume for YouTube videos, while the intuitive playlist feature allows you to easily select and rename tracks. Simply press the "YouTube" button to change to YouTube videos and resume playing. The collection of playlists keeps your preferences aside and helps you organize your favorite tunes. -

Crossfading: If you change your mind about the selection, all you

have to do is press the fast forward/rewind button to trigger a cross-fade effect between the involved tracks. The track that was at the end in the original version is now the one at the beginning, and vice versa. -

Listen and forward:

NeverStopYT allows you to listen to YouTube videos while you're browsing other videos in your list. Just press the large "YouTube" button in the bottom right corner of the window to

resume YouTube playback with the existing playlist. If you want to stop listening to a YouTube video and just continue the browsing, pause it and press the media keys until you hear the notification sound for the media keys. - Backward, forward and volume control: NeverStopYT is not just another YouTube player, as it also features a built-in volume control to avoid distortions due to YouTube videos or other playlists that

adjust the volume in their background. - Multitasking: NeverStopYT allows you to listen to YouTube videos while browsing other videos at the same time. Just press the multitask button to switch your cursor to the YouTube player and pause both videos simultaneously. This functionality is also available through the "YouTube" button in the bottom right corner of the window. - Built-in multimedia

keys: NeverStopYT allows you to control the player using the volume up/down/mute keys or the "Play"/"Pause"/"Stop" keys. -
Built-in support for M3U
playlists: NeverStopYT allows you to

System Requirements:

Note: The number of players is dependent on the power of your computer. The minimum requirement is an i5 CPU and 8GB RAM. Processor: Intel Core i5 2.4 GHz or AMD equivalent
