In the book, the page numbers correspond to the page numbers (PDF) Literary Studies in the Post-printing Age: Situating the Print-like in the Diwani (The Print-like in the Fin-de-SiÃ...The question of how best to deal with this most global of conflicts is one of the principal unresolved problems of the twenty-first century. The process of drawing lessons from the war in Iraq is far from complete, but there is no question that the old rules no longer apply. The military doctrines that

worked so well for the first half of the last century no longer appear adequate to deal with the Taliban, the Al Qaeda network and the Islamic State, and unless we find new ways to fight a new kind of war, we will probably face the same type of conflict in more countries than we have today. A conflict like the struggle between the U.S. and al-Qaeda's jihadis, or the U.S. and ISIL's shock troops, is currently a relatively small conflict fought by a few countries on a small battlefield. But one of the ways out of this impasse is to broaden the battlefield. The struggle against the Islamic State is not something that can be confined to Syria and Iraq. It is spreading all across the Middle East, and

it is spreading all over the world. It is a global struggle. Unfortunately, we are all still very much at the beginning of trying to understand this new kind of warfare, and how to fight it in a way that is modern and effective. The new rules of warfare have been on display in Afghanistan, where the U.S. military is now engaged in what are euphemistically called "low-intensity" wars. The front line of these wars is the country's cities, where the Taliban and al-Qaeda are fighting in a far more sophisticated and decentralized way than they have in the past. In Afghanistan, as in Iraq, we learned to fight this new kind of war, but the question is whether this will be the last

word, or whether we are entering the final chapter of this era of warfare. For me, the most vivid example of what is now at stake is Afghanistan, where a counterinsurgency is still being fought between the United States and al-Qaeda's jihad
