[13] Under § 506(b), a creditor may recover post-petition interest on an oversecured claim where the creditor is also entitled to fees and costs. See 3 Collier on Bankruptcy, § 506.06 (Lawrence P. However, the bankruptcy court never granted fees or an interest rate. Therefore, it could not have modified the fees requested by the mortgagee. Dissociation of lipoxygenase products in responses to ionizing radiation, glutathione depletion and cytochrome P-450 inhibition in HL-60 cells. The inducible 12-lipoxygenase product, 12-hydroxy-5,8,10,14-eicosatetraenoic acid (12-HETE), and the cytochrome P-450 dependent diol dehydrase, 12-hydroxy-5,8,10,14-eicosatetraenoic acid 12-dihydroxylase (12-HETE-diol), were measured in HL-60 human promyelocytic cells irradiated in vitro. A significant elevation in 12-HETE and 12-HETE-diol was observed as early as 1 h after 20 Gy (p less than 0.001) and 6 h after 5 Gy (p less than 0.01), respectively. In glutathione depleted cells, 12-HETE and 12-HETE-diol levels were suppressed to a similar extent as that of glutathione (p less than 0.01). Pretreatment of the cells with cytochrome P-450 inhibitors abolished the formation of 12-HETE and 12-HETE-diol in irradiated cells. These results indicated that 12-HETE and 12-HETE-diol were formed not only as a direct result of ionizing radiation but also from a pathway which was dependent on glutathione and cytochrome P-450.

Add both blocks and text to your designs. An easy-to-use palette allows you to quickly and easily add both blocks and text to your drawings. Organize your drawing: Place a text on a plane, wireframe, or any other block, and then lock it to the same reference as the drawing you are working on. Change the plane on which you've placed the text, and the text moves with it. (video: 1:18 min.) Rename in all three languages: AutoCAD 2023 includes a new English and German localization feature. At the top right, select the language that you want to use for the main interface. This also allows you to select the language that you want to use in the Ribbon. (video: 1:40 min.) Ribbon customization: Customize the appearance of the ribbon by customizing the toolbars and panels. (video: 1:45 min.) Locate any command with ease by creating customized ribbon shortcuts. Create your own shortcuts for any command by creating a ribbon action. (video: 1:47 min.) In-Drawing Editing and Quick View: Easily select features and shapes in your drawing. Select a rectangle, an ellipse, a line, or a polyline in your drawing and select a shape from the Shape Selection toolbar or go to the Select Shapes menu. AutoCAD 2023 automatically opens the currently selected shape. AutoCAD automatically opens the currently selected object in the current view or, if there's an active action, it opens the object in the active view. (video: 1:27 min.) Hide or unhide object entities in the drawing. (video: 1:29 min.) Use any object as a reference. If you select a shape that's not currently on a plane, you can easily place it on a plane. This allows you to take multiple complex objects, such as a valve, and reposition them easily. (video: 1:23 min.) Create a shape from any object in the drawing. For example, draw a triangle with a closed loop from any closed-loop entity, such as a bolt. (video: 1:27 min.) Identify and display an object's next and previous shape entities. Select an object, and then go to the Select Shapes menu. AutoCAD automatically opens the
