The Magnetic Pulse Linker is a highly specialized version of the Magnetic Pulse Launcher, and is an improvement over the original Magnetic Pulse Launcher in several ways. For one, the Magnetic Pulse Linker connects to magnetic devices (like the rocket and its boosters), which makes them simpler to attach to a weapon's body, and it has two attach points instead of one. It also features a specially designed ejection mechanism (see under "Test and Commissioning of the Rocket X and the Magnetic Pulse Linker") that allows it to come apart from the body very quickly when the weapon is turned off. However, the Magnetic Pulse Linker cannot be used to activate any explosive device, so it has to be attached to the Weapon Body first. The Magnetic Pulse Linker is also built to be as small as possible while still being able to fire the Magnetic Pulse Launchers' explosive tip. Test and Commissioning of the Rocket X and the Magnetic
